

ASIO Compatibility

Soundcards and External Audio Devices

We have tested the NT1 5th Generation with the following audio devices to ensure compatibility when using the ASIO driver to record in 32-bit float.

WINDOWS PC SOUNDCARDS
AMD Audio Device
AMD HD Audio device
Intel(R) Display Audio
Intel(R) Smart Sound Technology
NVIDIA HD Audio
Realtek Audio
Realtek USB Audio
Realtek HD Audio
EXTERNAL AUDIO DEVICES
AI-1
AI-Micro
NT-USB+
NT-USB Mini
RØDECaster Pro
RØDECaster Pro II
VideoMic GO II
VideoMic NTG

We have also tested with a wide range of third-party audio devices to ensure compatibility. If you are experiencing problems with your device, please contact us with the details of your computer, audio device (either the internal soundcard manufacturer and name, or your external audio interface) so we can help you troubleshoot: info@rode.com.
